BLUEBERRIES

*Easy to Grow
and Bear
Young*

*A Five-Year-Old
Blueberry Plant*

South Michigan Nursery ~ ~ ~
~ ~ ~ **New Buffalo, Michigan.**

A 5-Year-Old Jersey Blueberry Bush, Year After Setting

GIANT

CULTIVATED BLUEBERRIES

EASIER TO GROW. Each year as we learn more and more about growing the HYBRID cultivated Blueberries, we find that they are not near as fussy about what kind of soil they will grow on, as we did a few years ago. Of course they prefer a rather moist acid soil, but we also find that they will grow on other soil too, by adding some peat moss, old leaves or saw dust with the soil. Sulphur and water them well during dry spells.

The Cultivated Blueberry is a rather DWARF growing plant. A plant 15 years old will not be over 6 ft. tall, but it will be the same size in circumference. They grow in a ball shape plant, and their roots are all very near the top of the soil, so they must be cultivated very shallow. Set the plants 5 ft.

apart each way, and keep clean by frequent cultivation. Hoe all weeds away from the plants. We offer 2-yr., 3-yr. and 5-yr.-old plants. All of these sizes have some buds. You can expect 2 to 6 quarts of fruit from a 5-year-old plant the year after set, when it becomes well established. Even the 3-year-old plants will bear some fruit the same year set.

We offer for sale JERSEY, RUBEL and RANOCAS varieties. These are the three best ones. The RANOCAS is early. Then comes RUBEL, and for late it's JERSEY. JERSEY bears the largest berries. All are excellent quality, and go well together on account of pollenization. You may order by name or leave it up to us to select the varieties for best pollenization. If you order only two plants we will ship you two varieties.

The ALFRED BLACKBERRY

Stands 35° Below Zero

Geo. Stromer, Originator

Year after year, with diligent care, I have propagated these plants to such an extent that the fruit is now being supplied to the local markets at a fancy price, and is always in good demand. Last year I measured a good many berries that were over one and one-half inches long, and three inches around. Buy from the originator and get GENUINE ALFRED.

IMMENSE SIZE. The berries are twice as large as ordinary Blackberries, many of them 1½ inches long, and the finest flavored of all Blackberries. It is practically CORELESS, sweet and delicious. Very small seed.

EXTREMELY HARDY. ALFRED can be grown anywhere without winter protection, having withstood 30 degrees below zero, and not a single tip of a branch injured, while our other varieties were frozen to the ground.

EARLY SEASON. It ripens a week to ten days earlier than Eldorado and in productiveness it is in a class by itself. We have seen them bear a second crop. We picked many cases this year in September.

How to Order

Fill out and mail your order just as soon as you can after you receive this catalog. Remember, the earlier the better. On all early orders received before February 5th we are allowing a 20% cash discount on all items in this catalog. Or you may take your discount in extra plants. 15% cash discount will be allowed on all orders received before March 5th, and 10% cash discount on orders received before April 5th.

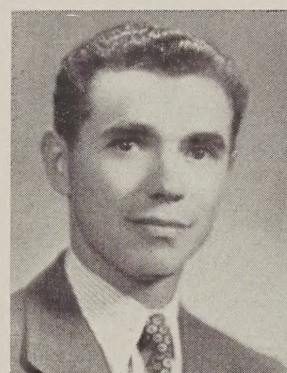

TERMS and REMITTANCE. Send post office or express money orders, bank draft, or your personal check. Please do not send currency unless you register the letter. Our terms are full payment with order. However, on orders amounting to over \$10.00, we will accept one-third payment with order and you may send the balance before it is time to ship.

WHEN TO PLANT. March, April and May are the planting months. Be sure to state when you want shipment made. If in doubt, let us ship at the proper planting time for your locality.

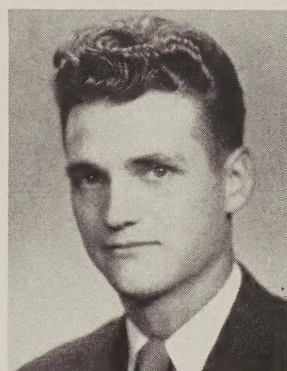

HOW TO SHIP. We ship everything either by express or parcel post.

We will not make freight shipments, as this service is too slow. Parcel post is best for small orders. Again, if in doubt, let us decide which will be the cheapest and best for you.

DISCOUNTS. It will pay you to mail your order early, as this year we are allowing 20% cash discount for all orders received before February 5th, 15% before March 5th, 10% before April 5th. If you prefer extra plants for this discount, please state on the order sheet.

GUARANTEE

We guarantee all of our nursery stock to be just as represented in our catalog; fully up to grade, of good quality, free from disease, and absolutely true to name; also to reach the customer alive, and in perfect growing condition. Furthermore, we will, at our option, either replace free of charge, or refund purchase price on any stock that arrives in bad condition; providing claim is made within 5 days from arrival of shipment, accompanied by a signed statement from the Express Agent or Postmaster at destination, showing extent of loss or damage. If any stock proves untrue to name, it will, at our option, either be replaced free of charge, or purchase price will be refunded; but in no case will we be responsible for a sum greater than the original purchase price paid. Beyond this our liability ceases. It is understood and agreed between the customer and ourselves that the purchaser's order, and our acknowledgement of its receipt, shall constitute a mutual acceptance of the above terms and conditions.

THORNLESS!

PLANT CANES ARE
SMOOTH AS A GRAPE VINE
BERRIES LARGE
AS LATHAM

RED RASPBERRY

Canes are smooth as a Grape vine. Absolutely thornless. This new early wonderful thornless Red Raspberry comes into bearing while Strawberries are still on, when Red Raspberries are selling at their highest prices. It's a week ahead of any other variety. Lengthen your fresh fruit season by adding a few plants of this Thornless to your collection. Berries are borne in large clusters, many ripe at one time. Fruit not quite as large as Washington, but just as sweet and good. Small seeds, and will not crumble when picking like so many early varieties. Excellent either eaten fresh, canned or fresh frozen. Keeps its color well. Plants a year old stand up stocky and sturdy like a little tree. THORNLESS plants are a scarce item.

Washington

Stramer's New WASHINGTON RED RASPBERRY

This new giant Red Raspberry has given universal satisfaction to commercial growers as well as home garden planters. One of the thriest growers of all Red Raspberries. Giant red berries are borne in clusters on canes that are twice as heavy as ordinary reds. Berries are thimble-shaped, and small seeded. All meat. Berries are produced over a long season, starting a little later than Latham, and after the main crop is harvested, the young canes will start to bear another crop for fall. Plants are strictly hardy, and very resistant to diseases. No matter how many varieties of Raspberries you already have, you should add a few WASHINGTON to round out your collection. Should be set 2½ feet apart in the row. Wait till spring to trim each year's growth back to 30 inches high. After main fruiting crop is over, prune out this part of the plant to make room for the new shoots that will bear the next crop. Do this each spring. A handful of commercial fertilizer, or a shovelful of manure around each plant during the winter months will do wonders within the next few months. Plants are still scarce, so we are offering 2-year-old fruiting-age, well rooted transplants.

SODUS PURPLE RASPBERRY

This variety of Purple Raspberry is by far the largest and best of them all so far. Purple Raspberries are a cross between the reds and the blacks. The parents, DUNDEE and NEWBURGH, have long been discarded, but the off-spring from these two varieties is a winner. The fruit is very large, firm, fine flavor (you can detect both flavors in SODUS), beautiful purple color, and ships well. As fresh fruit it's simply delicious. Freezes well, and makes the most beautiful jelly. The plants are vigorous, very productive, and hardy. It ripens shortly after Latham, and bears for about a month. It favors the black Raspberry in plant growth, and should be pruned like one. Why not try a dozen to start with. This will make a family size patch:

INDIAN SUMMER

BEST EVERBEARING RED

This new two-crop or everbearing Red Raspberry was introduced by the New York Experiment Station several years ago, and has been well tried out, and proven a success, both as a one-crop bearer, and also as an everbearer. The fall crop is borne on the new growth. The fall crop will start in September and continue till frost late in the fall. Berries are large, conical shape, firm, few seeds, and sweet. Fine shipping quality. The plant is a husky grower, perfectly hardy, and resistant to common diseases. Bears midseason to late fall. We offer both 1-year and 2-year-old plants in this variety. On November 7th 1947, we picked our last Indian Summer berries.

MORRISON

LARGEST BLACK RASPBERRY GROWN Many Berries as Large as a Quarter

Morrison is fast becoming the highest ranking commercial Blackcap. It's a rank grower, and produces immense, round, jet-black fruit of the highest quality, both for fresh, canning, freezing, or jams. You cannot beat it. Cumberland is good, but Morrison is better. It will bear twice as much fruit as Cumberland will, because the bushes are twice as large. Morrison is about a week later to ripen than Cumberland. Berries will hang to the bushes a week after they are ripe. Easy to pick. Easy to grow. MORRISON is not too new as this is the sixth year we have been growing it. It's "Time Tested" by this time and is here to stay. Get started this year. Plant some, even if it's only a dozen in the garden. Twelve plants will produce enough fresh fruit for an average family.

3-YEAR-OLD MORRISON

We have a limited amount of 3-yr.-old Morrison plants to offer. These are giant plants trimmed ready to set and bear a full crop.

LATHAM

Red Raspberry

Commercial Grower's First Choice

Latham is to Red Raspberries what Dunlap is to Strawberries. An old standby that grows anywhere on most any type of soil, and so hardy that it will stand 45 degrees below zero. Latham berries are large, often an inch in diameter. Best all-around berry to grow for a late red. Cans well, and fine for freezing. The plants grow large and tall. Holds the load of fruit well when trimmed back to 30 inches tall each spring. Plant Sunrise for real early, Latham for late, and Indian summer or Washington for the late everbearing, and you will have fruit all summer and fall.

CUMBERLAND

The Business Black Cap

This is without question one of the most profitable and popular Black Raspberries ever grown. It is the one safe and reliable commercial variety because you can depend on a big crop regularly. We call it the "Business Blackcap" because it succeeds on all soils and produces its big crop year after year.

We have never known Cumberland to fail, and the best proof that it is a profitable variety is the fact that the demand for plants is greater every year and more Cumberland are planted than all other varieties combined.

Cumberland is perfectly hardy and tremendously productive. The berries are extra large, glossy black, and not equaled by any other variety in quality, flavor or appearance, except Logan. Whether wanted for market or home use, we can recommend Cumberland to our most exacting customers. Disease-free. Twice state-inspected plants.

Boysenberry

All of the Good
Qualities of the Regular Boysenberry
BUT NO THORNS

THORNLESS BOYSENBERRIES ARE DELICIOUS

This is the early ripening strain of Thornless Boysenberry with canes as smooth as a Grape vine. RIPS TEN DAYS TO TWO WEEKS EARLIER THAN BOYSENBERRY. The introducer claims even heavier yields from this Thornless Boysenberry than the common Boysenberry. This new strain Thornless Boysenberry is identical to the Boysenberry except that there are no thorns and it ripens earlier. This is a very good feature as the early berries bring more money. The Thornless is just as hardy, rugged and heavy bearing as its parent, the Boysenberry. Vines grow 25 feet long, and this pretty apple-green vine loaded with giant purple beauties is a sight you will never forget, and after you taste a handful of them, other berries will go begging for a while. Delicious with cream and sugar, and when made into jam, it's the last word. Supply of plants still limited, so hurry.

SUNRISE

SUNRISE will make a good fruiting row in less time than other varieties of reds. Grows shorter and more stocky. Holds up well under the load of fruit.

The OUTSTANDING NEW RED RASPBERRY originated by the U. S. Department of Agriculture has now been christened SUNRISE. It comes to fruit growers with many advantages over older sorts.

DR. DARROW and PROFESSOR CLARK described the new berry in the U. S. Department Circular 397. It originated as a cross between Latham and Ranere. Among other things they say: "Of most importance about SUNRISE from the standpoint of the practical grower perhaps are:

- 1—"HARDINESS and RESISTANCE to disease."
- 2—"EARLINESS and LARGER SIZE of the berry as compared with Ranere."
- 3—"BETTER TEXTURE and QUALITY of the fruit compared with Latham."

Fredonia

HARDY DEPENDABLE

FREDONIA

This new early black Grape was originated at the New York Experiment Station. No other Grape contains quite so much sugar as Fredonia. Bunches are large and compact. Very hardy, vigorous grower. Bears second year. Ripens 15 days ahead of Concord, and tops the market on account of its high quality. A few cents spent now for some Fredonia plants will be a lifetime investment, for which you will never be sorry.

GOLDEN QUEEN RASPBERRY

A beautiful large, golden yellow Raspberry. Many prefer this fine variety to any of the reds or blacks, owing to its sugary sweetness and unsurpassed flavor. Should be in every garden, its beauty and high quality placing it at the head for table use. The canes are hardy, vigorous growers, and heavy croppers. Grows like a Red Raspberry and should be handled like one. Ripens with Latham. Our bearing age plants will bear fruit this year. Both size plants will bear full crop in July, 1949.

GRAPE VINES

CACO

This is the new quick-growing, young-bearing, delicious, sweet, big red Grape that is so popular. It has no equal as a home-use table Grape. It has a peculiar characteristic found in no other Grape, in that it is rich in flavor. Its deep, wine-red color is so pleasing to the eye. A vine full of these rich red beauties is a sight. Ripening in September as they do, the crop will be harvested long before killing frosts.

SENECA

THE NEWEST THING IN GRAPES

This is not just another yellow Grape. It's different. It's early to ripen. Bunches are large, compact and tapering. Berries are oval in shape and sweet as honey, juicy, yet firm, and best of all, the skin can be eaten with the berry. SENECA can be grown anywhere, on any soil. It's hardy and vigorous. Have only 500 plants to offer, so hurry up your order before we are sold out on them. We offer 2-year-old, No. 1 plants at \$1.00 each; 3 for \$2.45; 10 for \$7.50. Less Discounts.

NIAGARA

This is the great white Grape that succeeds most everywhere, even as far south as Florida. Bunches are nice, large, well shaped. Of a greenish white, turning to a light yellow when dead ripe. When fully ripe they are as sweet as honey. Vines are hardy, and bear young.

GOLDEN MUSCAT

This new hardy California yellow Grape can now be grown anywhere, because it's hardy enough. The berries are large, and form a big, compact bunch that is very attractive. Quality is of the best, fruit being meaty with the Muscat aroma. Be sure to have at least one plant of this new variety in your garden or back yard, and be convinced. Prices: 1-yr., No. 1, strong plants, each \$1.50; 3 for \$4.00. Less Discounts.

WHITE BLACKBERRY

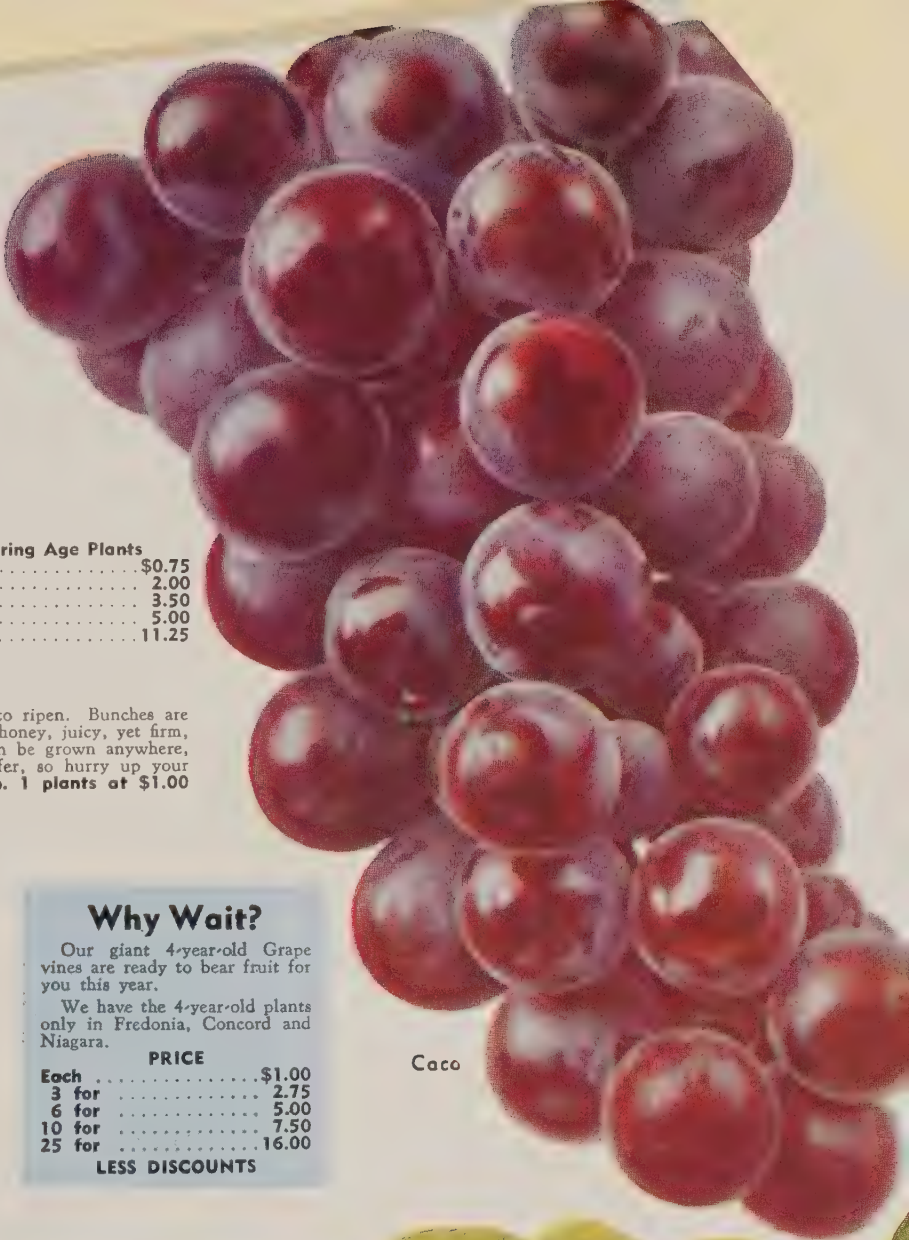

Strange as it may seem, this is a real creamy white Blackberry. Mixed with the jet black ones for dessert, it makes a most wonderful dish. The fruit is about the size of Alfred, with few seeds and quite sweet when fully ripe. The bushes are good, strong growers and very productive. This is not a worthless novelty, but a fruit of real value, and should be in every garden.

Niagara

Van Buren

VAN BUREN EXTRA EARLY BLUE GRAPE

New York State Fruit Testing Co-operative Association says this is the most promising **very early** blue Grape introduced. Clusters medium size, and very compact; berry a little smaller than Concord and equal if not superior to Concord in quality. Now when you can get a Grape that is superior in quality to Concord, that is something. Strong grower, bears young, and annually. Try a few plants of this wonderful variety. Just the one for you folks who live pretty far north. Van Buren will get ripe ahead of the frost. We have only 1-year-old, No. 1 plants to offer. **Price: Each 85c; 3 for \$2.50; 6 for \$4.25. Less Discounts.**

MARY WASHINGTON ASPARAGUS

There is no variety of Asparagus as good as Mary Washington, and whether for home use only or for market, you cannot afford to grow any other. This wonderful new Asparagus was developed and introduced by the U. S. Department of Agriculture, and although a recent introduction, it has become famous the country over.

Growers everywhere are discarding all other varieties in favor of Mary Washington, because it is earliest, the stalks are larger, more tender, more productive than any other variety.

GRAFTED BLACK WALNUTS

We offer you grafted varieties like Banner, Clark, Horton, Ohio, Stabler, Thomas and Stambaugh. These are all excellent varieties. Nuts are twice as large as the common Black Walnut, and the meats are also so much larger. Will come out in halves, and lighter in color. High in oil content. **We offer 5- to 8-ft. trees at \$6.00 each; 2 for \$10.00.** We will send variety best suited to your locality.

ROCK-O-HONEY MELON

This is the last word in a Melon. It's a cross between the Honey Rock and the Hearts of Gold. They are large and hard as a rock, yet tender, sweet, and excellent flavor. Smallest seed cavity. Golden orange-yellow. You must try them. **Prices: Pkg., 25c; oz., 50c; lb., \$5.00, postpaid.**

CANADA RED RHUBARB

A brand new Rhubarb imported from Canada. Stems dark red clear to the heart and up in the leaf. Sauce made from our Canada Red will be as red as Strawberry jam. Skin so tender it can be cooked with the stem. Grows to a giant size. Stock still limited. We offer divisions as it can not be grown from seed.

We offer a few **EXTRA LARGE 3-year-old CLUMPS** for \$1.50 each. Cut full crop this year.

LESS DISCOUNTS

LUCRETIA DEWBERRY

Excellent for canning. Of the Blackberry type, but produced on a trailing vine instead of upright bush. Fruit is earlier and larger. Attractive, black, firm, good quality. Plants are disease resistant. **1-yr., No. 1 vines, 5 for 85c; 10 for \$1.50; 25 for \$3.00; 100 for \$8.95.**

Lucretia Dewberries

HORSERADISH ROOTS

This is the good old Bohemian Horseradish. Will grow any place from high light sand to rich bottom land. Grates up fine and tender. White as snow and strong as Samson. **Prices: Heavy roots, 3 for 35c; 10 for \$1.00. Heavy Crowns, 3 for \$1.00; 10 for \$3.00.**

VICTORIA RHUBARB

This giant stalked Rhubarb is the best that can be grown. It is tender, early, and has a mild acid flavor. Stalks are reddish green. Delicious for pies and sauce. We offer you nice size 2-year-old roots that can be cut this year. **Price: Each 25c; 3 for 65c; 12 for \$2.00; 25 for \$3.75; 100 for \$14.00. Less Discounts.**

Victoria Rhubarb Clumps, 3-year-old, cut full crop this year, 50c each; 3 for \$1.25.

PEPPERMINT (Mentha Piperita)

True Peppermint. Leaves and stems may be used for flavoring. Plant in low place, where water stands, or overflow from your outdoor pump. Must be grown in wet place to do well. **Price: 6 roots for 60c.** Six roots will spread and make plenty for average family. Makes beautiful ground cover.

HOLLYHOCKS

Chater's Double Mixed

Flowers from 3 to 5 inches across. **DOUBLE.** Thickly clustered up and down 3- to 5-foot stems. Ruffled double flowers come in red, yellow, pink, and many other colors. Cut stems after they bloom. New plants will come up each year and bloom for years. **Strong, 2-year-old, field-grown plants, each 45c; 5 for \$1.60. Less Discounts.**

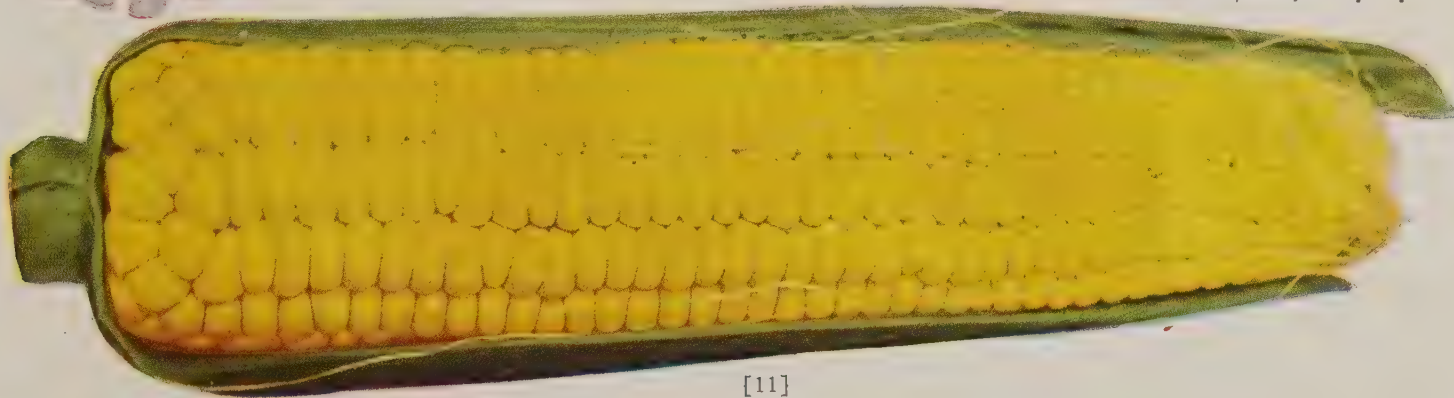

GOLDEN OBLONG PUMPKIN

A few years ago we discovered this Pumpkin growing in a field of Hubbard Squash. The vine bore 30 fully developed and ripe Pumpkins. Resembles an overgrown ripe Cucumber when fully ripe. Grows about 1 foot to 18 inches long. Not over 8 inches in diameter, and one will make two or three pies. The finest grained Pumpkin in the world. Sweet and tender. Small seed cavity and thin skin. Grows anywhere, and will be ripe in 60 days after planting. **Prices: 20c per pkg.; 35c per oz.; \$4.00 per lb., postpaid.**

58-DAY HYBRID YELLOW SWEET CORN

This is the earliest and sweetest of all Sweet Corn. Ears 7 to 9 inches long. Stalk grows to medium height and several ears on one stalk, when planted in good garden soil. Big moneymaker. Be the first one to offer Sweet Corn for sale this year. First Corn always brings 50c per doz. **Price: 1/2 lb., 50c; 1 lb., 75c; 5 lbs., \$3.50, postpaid. Less Discounts. 10 lbs. for \$6.00, not postpaid.**

MASTODON

Mastodon has been with us for about 20 years, and in all these 20 years we have never known them to fail on a full crop 5 to 6 months long the same year they are set out. The size of the berry is like Wayzata—very large. It is of very good quality, red all the way through, and fine flavor. Bears as heavy as Wayzata, and makes many new runner plants. These new runner plants will also bear toward fall, and then you have a real picking row. This wide row will make fine picking next June as a spring berry. Mastodon does not require any special soil, care or petting. They grow most anywhere, or on any soil that will grow garden or potatoes. They sell like "hot cakes" on roadside stands, or on any market. It will take a hard freeze to stop Mastodon from bearing. White frost will never hurt them at all. A field of Mastodon in full bearing in late November is a sight never to be forgotten. Even after a light snow one can go out and find ripe berries unharmed.

New ROBINSON

Latest in Spring-Bearing Strawberries

MARVELOUS QUALITY. These big round blunt-pointed berries are of top quality. They are borne on large thick fruit stems, that are protected with a heavy foliage that makes up a wide fruiting and picking row. The tangy rich sweet flavor is found in no other Strawberry. Just imagine yourself ready to start working on a dish full of these berries. Solid red all the way through and full of rich red juice.

CATSKILL

An outstanding midseason variety which produces large, bright red berries with a bright green calyx—very showy, excellent seller. It is considered almost frost-proof, ships well and can be depended upon for annual bumper crops. **Price same as Robinson.**

SENATOR DUNLAP

Senator Dunlap is an old well known variety that has made more dollars for berry growers than any other variety. It will grow most anywhere and on any kind of soil. However, it will do best on heavy, rich soil. If planted on light soil, be sure to set them two feet apart. On heavy soils set them eighteen inches apart. Berries are dark red, firm, and sweet. Wonderful for canning and freezing as well as fresh.

Streamliner Brings Sensational Results!

If You Will Follow These Simple Directions

Plant some STREAMLINER Everbearing Strawberry plants this spring as early as you can work the ground. For garden culture you may set them 1 foot apart in the rows, with rows 2 feet apart. For field culture, set them 1 foot apart in rows, and rows 3 feet apart. Set plants not too deep. Have ground just level with the crown of the plant. Start to cultivate a week later and cultivate every week thereafter till fall. A garden rake is the best tool to use in the small garden patch. Keep all blooms and buds picked off for 30 days, this will give the plant a good start. After 30 days, let them bloom, and you will be picking ripe berries within 30 days after they bloom; they will never stop till killing frosts in the late fall. For the largest crop, it will be well not to let each plant make over 3 to 4 runner plants. Nip the rest of them off. In the hot dry spells you should water the plants in the evening and a good soaking once a week is better than to sprinkle every evening. Be sure to break the crust that the soaking forms, the next day about noon. This is most important, because this will prevent the soil from drying out too fast. It also kills weeds before they have a chance to get started. Follow these simple directions and you cannot fail with STREAMLINER. These directions also apply to all the varieties of Everbearing Strawberries we list.

DORSETT

Ripens early, with Premier and Blakemore, but immune to frost, drought, and excessive rain. Berries keep, ship, and hold color. The fruit is sweet, and is excellent fresh or canned. **Price same as Premier.**

GEM

Bears 60 Days After Planting

- Differs a little from Wayzata and Mastodon in this way: Gem prefers a clay or a heavy sandy loam soil, where Wayzata and Mastodon do well on any kind of soil. Gem also does best when grown in the hill system, so for best results keep all runners nipped off. The berries are large and smooth, and of a light red color, that ripen up even all around. Bears equally as heavy as Mastodon, and the berries get larger towards fall. Runner plants will bear as well as the mother plant. Gem is a good plant maker. Makes a good June-bearing variety. Bears 3 crops in 18 months. Gem makes a beautiful quart of berries. Berries like these sell for 50c a quart around Thanksgiving and bring good prices all summer long.

PREMIER

The Most Famous Berry Ever Introduced

Premier Strawberries sold as high as \$11.50 per 16-quart crate on the Benton Harbor, Mich., Wholesale Fruit Market.

If you plant STROMER'S PREMIER you will get the first berries on the market. They will be bearing heavily before other varieties begin. Your biggest picking will be when berries are in good demand and are bringing top prices. Premier will grow anywhere. The plants are sturdy and long rooted, a good drought-resister. The berries are very large, and hold their size to the last picking. The flavor cannot be beaten.

Minnesota 1166

Now Called "EVERMORE"

**At Last! An Everbearing Strawberry That Has Everything
Starts Bearing 60 Days after Set and Continues Bearing Till Heavy Frosts
3 CROPS IN 18 MONTHS!**

Minnesota 1166 is a large, long-pointed berry, produced on long-branched fruit stems, well hidden under the leaves for good protection. The color of the fruit is on the dark red order, and a solid red clear through the berry, even when the berry is still not quite ripe. The flavor is even better than the Wayzata everbearing, which up to now has always been the best flavored berry.

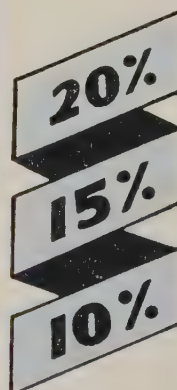

Minnesota 1166 is just as productive as any everbearing Strawberry we have grown, and makes a good quantity of plants. For best results in fruit production, we recommend that the runners be pinched off as fast as they appear in the summer. It's a strong grower, resembling the Missionary variety. The fruit is attached to a fine green hull that will not pull out even when the berries are dead ripe. This, with the small amount of juice this variety con-

tains, will make it the very best jam berry ever introduced. This variety has been known to keep 5 days without refrigeration, and never mold or spoil in the hottest weather. It will dry up like a raisin before it will spoil. This will make it the coming commercial variety, as most other everbearing varieties will not keep long after picking.

Minnesota 1166 berries shipped to the South Water Street market in Chicago this summer sold for \$7.50 per 24-pint crate. Once you have tasted Minnesota 1166 berries you will eat no other kind. We know, for we grow all the varieties and at our table we choose the Minnesota 1166 every time. We have 150,000 of them to offer and we are sure this will not go half way around, so send in your orders early, and take advantage of the discount we offer for early orders.

BLEEDING HEARTS

This lovely hardy old-fashioned plant is loved by all. Lives for years and comes forth each spring, right after the snow goes off, with its long arching stems, loaded with dainty heart-shaped flower pendants. Rosy red, pale yellow centers. All stems do not appear at once. Will bloom over a 6-weeks period. Plants are very hardy, and can be divided every three years. Plants go dormant in June in time to plant annuals like Zinnias or Marigolds. **Price:** Large, field-grown clump plants, each 75c; 3 for \$2.00. Less Discounts.

CUSHION MUMS

5 CHOICE COLORS

These are the famous Cushion type Mums that are so widely advertised. Our large plants will bloom this year, and every year for a good long time to come. 500 to 1000 blooms on a single plant, often the same year planted. They start to bloom late in July, and are still at it when killing frosts stop them in late fall. Ideal for landscape work and borders. Will live for years, and always come up year after year without much attention. Single plants will get as large around as a bushel basket and carry a thousand blooms all at once. Their dwarf habit of growth makes them an ideal plant for window boxes and urns. All five of them make fine cut flowers. For cemetery work they are ideal, since they stand more abuse and neglect than any other flower.

A Single Yellow Cushion Mum With a Thousand Blooms

YELLOW CUSHION

Above we show you a single plant of Yellow Cushion, 5 months after planted in the garden. Nearly 1000 blooms on this plant, and still more coming. Almost impossible to see any of its beautiful dark green foliage. Price: Each 50c; 5 for \$2.00. Less Discounts.

CUSHION MUM COLLECTION

One of each of these fine Cushion Mums for only \$1.95, Less Discounts. Two each for only \$3.50, Less Discounts.

BRONZE CUSHION

This Mum grows exactly like the Yellow Cushion. Hundreds of blooms open at one time, and blooms over a 3-months' period, and takes a heavy frost to stop it. We show you one bloom, since we do not have space to show you the whole plant. Starts to bloom about a week later than yellow Cushion. This is one of the most beautiful ones of the Cushion Mums. Fine for cut flowers, since it's such a fine fall color. Price: 50c each; 5 for \$2.00. Less Discounts.

PINK CUSHION

Here is an old favorite, since it was the first one to be originated in Cushion Mums. Grows a huge plant just like the Yellow Cushion, and we show you a single bloom. Now just imagine 500 to 1000 of these on a single plant, and you have PINK CUSHION in its glory during September and October. Price: Each 50c; 5 for \$2.00. Less Discounts.

WHITE CUSHION

No collection of Cushion Mums would be complete without a white one. It's so dainty and fine featured. A faint tinge of lemon-yellow will show near the center, which makes it more beautiful than ever. Grows to huge size just like the others in a single summer, so where could you find a bigger half dollar's worth. Price: Each 50c; 5 for \$2.00. Less Discounts.

RED CUSHION

Here is the Santa Claus of them all, with its fiery red color that blends in so well with all the others. It, too, grows large like the yellow one, and with just as many blooms open at one time. If you have the facilities, plant some of these Mums in pots or old cans, and sell them for \$2.00 each in full bloom. Price: Each 50c; 5 for \$2.00. Less Discounts.

PEACHES and CREAM

WHAT A BEAUTIFUL DREAM!

Peaches are not hard to grow, except in a very few localities, where the temperature gets too low. At any rate since Peach trees are not expensive to buy, everyone should have a tree or two in the back yard at least. If you are in a good locality, a Peach orchard is a very good investment. You start to harvest a crop the second year after planting, and often the same year they are set. We are listing five of the best varieties. They are "Tops." Peaches require extra well-drained soil. What could be better than a big dish full of nice tree ripened sliced Peaches and cream. So much better flavor than the fruit that you buy in the store, that was picked a week before ripe. The sugar content grows rapidly in a Peach the last few days it hangs on the tree. So grow your own, and see the difference.

REDHAVEN

This is one of the finest quality of all Peaches. Almost solid red all over when fully ripe. Perfectly freestone, and the flesh is firm and meaty. Not soft and mushy like so many of the early Peaches. REDHAVEN is early, and a little smaller than Hale-Haven, but we feel this is due to the fact that this variety bears so heavily. We have thinned the fruit when two months from ripe, and have found that by doing this, they will become a very large Peach. So it would be well to thin them a little when they are on the branches thicker than six inches apart. Redhaven is self pollenizing, although it is always better to give it a mate of some other variety. Redhaven would be a good pollenizer for the Elberta, as Elberta is a little shy on bearing when set all alone.

HALE-HAVEN

This variety is a week later than Redhaven. In popularity and profit producing, it is second only to the famous Elberta. In a few years there will be more Hale-Haven planted than any other variety. Our fancy, well-bred Hale-Haven trees will bear young and annually. Fruit is freestone, and deep orange-yellow with deep red color many days before they are fit to pick. When fully tree-ripened they are a sight to look at. Firm, yet tender, sweet and juicy. Ship well and will keep a week in the refrigerator, even when fully ripe. We do not hesitate to say that Hale-Haven is the best canning and freezing variety of them all.

WHY WAIT?

A HALE-HAVEN SUPER SIZE SECOND YEAR AFTER SET

ELBERTA

The old famous variety needs no lengthy description. Fruit is very large, rather oblong in shape. Freestone, firm, and one of the best shippers. Trees grow larger than other varieties. Ripens a week later than Hale-Haven. Fruit deep yellow, with red blush. Deep red around the freestone pit, with balance of the flesh a fine golden yellow.

J. H. HALE

This variety is the giant of all Peaches. Large, round, thick flesh, with very small pit. Freestone. Richly flavored. Fine texture. Always sells for the highest price. Ripens a little later than Elberta.

Giant

PLUMS

RED GIANT

MOST BEAUTIFUL PLUM IN THE WORLD

Clusters of 7 to 12 mammoth beauties on the end of each branch! Fruit often measures 2½ to 3 inches long. Roundish oblong in shape. Ripening evenly, Red Giant Plums attain a deep, glowing maroon-red color, thickly overspread with pink bloom. No other Plum like it! Flesh is greenish yellow, very firm, fine and sweet. Wonderful shipper and canner. Not easily bruised in handling. **Prices on next page.**

DWARF SAPA PLUM

Medium size reddish purple fruit. Deep red all the way through to the pit. **FREESTONE.** Enormous cropper even in coldest climates. Fruit firm, still juicy. Sweet. Wonderful for canning or freezing. Trees bear at 3 years old. Trees are dwarf growing. **Prices on next page.**

Sapa

← GREEN GAGE

Large greenish yellow in color, and sweet as honey. Flesh is yellow and very juicy. Truly a dessert Plum. Also very fine for plum butter, canning or freezing. Trees bear young and annually. A basket of tree-ripened Green Gage throw off a sweet perfume that is produced by this variety only. Deserves to be in every back yard or garden. **Prices on next page.**

HARDY MANCHU APRICOTS

Will even grow as far north as the Dakotas. Original Manchu strain. Bears annually. Trees will often start bearing at 3 years. Fruit is a beautiful orange color. Freestone. Skin is smooth and fuzzless. Sweet as sugar. Not necessary to peel them. Self pollinizing

STANLEY PRUNE PLUM

Large blue Prune type Plum. Sweetest of all Plums. Flesh is yellow as butter, and the pit falls out when broken open. Starts to bear young and regularly each year. Needs no other variety to pollenize. Ripens early September. Wonderful shipper and keeper. Eat them fresh, can them, or freeze them, and you will have the best. Supply of Stanley Prune trees limited this year. Order early.

SUPERIOR

This hardy red Plum is sweet, juicy and has yellow flesh. Freestone and self pollenizing. This is a very good all-around Plum for every purpose. Trees bear very young, so there will be little time to wait for fruit.

SANTA ROSA

Big heart-shaped red Plum of superior quality. Flesh pretty yellow. Firm, yet tender, sweet. Fine for canning or freezing.

BLUE DAMSON

Most popular Plum of them all for preserving. No other Plum will take its place. When canned the juice is a rich wine-purple and highly flavored. Not such a good Plum to eat fresh, as Stanley Prune. Flesh green. Small stone. Hardy. Prolific yielder.

Montmorency (Pie Cherry)

CHERRIES

MONTMORENCY

Pie Cherry

The finest and most reliable pie Cherry ever introduced. Big, round, juicy, bright red fruits will be yours to eat fresh or canned every July if you will set our "Certified Bud Selected" trees this spring. Often bears the year after set. Deliciously sub-acid. Good to eat fresh, or canned, frozen, or in pies. Also the one to use for Cherry juice. This variety will grow most any place in the United States, except the deep South. Not fussy about the soil. Montmorency is so dependable, and always sells. Folks will come and pick themselves, if you find yourself short of help in harvest time. You will receive trees that have been budded from Michigan State Certified parent stock. Our supply of these extra fine quality Cherry trees is limited, so order yours early.

On the next page you will find we list a RUSSIAN MULBERRY. This is a fine tree both for shade, and also a fruit tree. It will pay you to have one or two of these Mulberries growing on your place to feed the birds. The birds prefer them to your Cherries, so this is the very best way to solve your Robin trouble in Cherry time. It really works.

OKA

Dwarf Hardy Hybrid

A practical and delicious fruit. This Hardy Hybrid Cherry-Plum bears a full crop even in coldest climates where regular SWEET CHERRIES do not thrive. Larger than Sweet Cherries, the fruit is dark purplish red all the way through. Small stone. Delicious and sweet, fresh or canned. Lovely white bloom in spring. Plant in garden or shrub border, preferably near Plum trees. Bears quickly—often year after planted. Prices: To the right.

HANSEN BUSH CHERRY

The New Quick-Bearing Cherry. EASY TO GROW—SURE TO PRODUCE—Highly Productive—Good Flavor—Hardy Everywhere

Though the fruit of this new Cherry much resembles a Plum in size and shape, it comes massed in clusters and at times almost completely covers the limbs. The tree grows in a dwarf bushlike shape, rarely getting over 4 or 5 feet tall. Also of striking ornamental value.

Plant Hansen Bush Cherries Because:

- 1—They are so easy to grow and are perfectly hardy everywhere.
- 2—Are good to eat fresh, and make delicious preserves.
- 3—Bear from the ground up, early, heavily, and annually.
- 4—Are dwarf growing, bushy, and take up little room.
- 5—Excellent for hedges, ornamental shrubs and erosion control.

Ready-to-Bear Plants
All Well-Branching
Transplants

2-year-old, 18 to 24 in. tall: Each 35c; 3 for \$1.00; 6 for \$1.80; 12 for \$3.25; 25 for \$6.25.

2-year-old, 2 to 3 ft. tall: Each 55c; 3 for \$1.50; 6 for \$2.40; 12 for \$4.25; 25 for \$7.50.

3-year-old, 3 to 4 ft. tall: Each \$1.00; 3 for \$2.75; 6 for \$5.10; 12 for \$9.60.

All above plants should bear first year set. LESS DISCOUNTS.

Hansen Bush Cherry in Bloom

Black Tartarian (Sweet)

SWEET CHERRIES

BLACK TARTARIAN

The very popular purplish black Sweet Cherry which ripens early, and has marvelously rich flavor. Fruit matures to large size. Trees are hardy and bear young and heavily. A leading shipping and canning Cherry. Excellent pollinizer. **Prices on page 20.**

SCHMIDT

No finer sweet Cherry can be grown for the midseason market. Schmidt Cherries are extra large, plump, and uniform in size. A beautiful dark glossy black in color. The flavor is rich and superb. Quality is extra firm and fine for fresh desserts, shipping and canning. A hardy, prolific bearer and fine pollinizer. **Prices on page 20.**

WINDSOR

This is that extra large blackish red Sweet Cherry that you see in the fancy fruit stores, that sells anywhere from 35c to 60c per pound. Brittle and sweet. Small pit. Dark wine-red all the way through the meat. Remarkable keeping qualities, and a wonderful producer. Ripens about the time most of the smaller varieties are off the market. Brings the highest price on any market on account of its size and attractive appearance. Sells like hot cakes at all roadside stands. Trees are vigorous, and will grow anywhere on any kind of soil as long as it's well-drained. Do not plant them where it is a little wet. Unless you already have a

Cherry tree growing, we would advise you to plant at least two trees. These need not be of the same variety. Trees are hardy anywhere the temperature stays above 40 degrees below zero. **Prices on page 20.**

RUSSIAN MULBERRY

If you plant Cherry trees this year or now have Cherry trees growing, plant a Russian Mulberry for the birds. They will leave your Cherries alone, and eat the Mulberries. One tree is enough. **Price: 5-6 ft. trees, each \$1.50; 2 for \$2.50. Less Discounts.**

ROYAL ANN SWEET CHERRY or NAPOLEON

The favorite golden Sweet Cherry with beautiful pink cheek. Known as **Royal Ann** in some sections. Fruit is extra large, deliciously sweet flavored. Favored for fresh desserts, canning and shipping. Prolific producer. **Prices on page 20.**

NECTARINE

Lovely pink flowers in spring, on small, ornamental trees. Loads of deliciously sweet fruit in late summer! Smooth skin like Plums. Mellow, rich, juicy, flesh-like Peaches. Very fragrant and attractive. A treat for the family, whether served fresh or canned. Hardy as Peach trees, and self-pollinizing. **Prices: 9/16 in., 4-5 ft., 2-year-old trees, each \$2.00.**

PEARS

BARTLETT

The Bartlett is the most widely known Pear of them all. It ripens about the first of September. Large, fine texture and flavor. The ideal canning Pear. Yellow, with red blush. Flesh is snow-white, and juicy. Bartlett sets the standard.

LESS DISCOUNTS

ORANGE QUINCE

We list this variety of Quince as we consider it to be about the best. Fruits are almost as round as an orange, and runs large in size. Trees commence to bear young and produce large crops of fruit annually. Excellent flavored. We have only the one size trees to offer, which are 3 years old and very well branched. Ready to bear. Price: Three-year-old trees, \$3.00 each. Less discounts.

Orange Quince

SECKEL (*Sugar Pear*)

This is the summer Pear that ripens in July. Smaller in size than Bartlett. Often called the **Sugar Pear**. Sweet as honey and mild and juicy. Lemon-yellow color, with white flesh. Fine for making pickled Pears. Just the right size. Trees grow thrifty and start bearing quite young. Enormous yielders. Price: The same as Bartlett above.

Vest Pocket PEARS

Most folks have only room for one Pear tree, and it's always hard to decide which variety to buy so they wind up by buying a Bartlett. Now it's possible to have five varieties of Pears all growing on one tree. Of course, one of the varieties will be Bartlett, and Clapp's Favorite, Seckel, Kieffer, Lincoln, and Bosc. This will give you Pears to eat from July to winter. Since Pear trees are a little more expensive to grow, we are asking \$4.00 each for these fine trees, but they are worth it. Fine, 3-year-old trees, \$4.00 each. Less Discounts.

SEMI-DWARF APPLES

These Apples are budded on Seiboldi root, which causes the tree to grow in a semi-dwarf fashion. This is just the ideal thing, where a person wants to plant more trees on a plot of ground than you could do with standard Apple trees. These are not a full dwarf, so you should set them about 16 feet apart. We offer Solid Red Rome Beauty and Solid Red Delicious. Bears young.

Semi-Dwarf Red Delicious

Semi-Dwarf SOLID RED ROME BEAUTY

This is one of the most beautiful of all Apples. Extra large, well shaped, red all over. Firm texture. Marvelous for eating, baking or cooking. Very fine pie Apple, too. Keeps well into the winter.

Semi-Dwarf SOLID RED DELICIOUS

Every one knows the Red Delicious Apple by this time. Grown from coast to coast, and is considered number one Apple wherever you go. Finest eating Apple. Keeps well.

DWARF BARTLETT PEAR

Fruit the same as standard Bartlett. Trees stay small, and bear second and third years after set. Hardy. Supply limited. Order early. Price: \$2.85 each. Less Discounts.

HOPA

Flowering Crab

We feel that this is one of the most beautiful of all the Flowering Crabs. From an ornamental standpoint these Hopa Crabs are well worth the price we ask for them, without the beautiful small reddish fleshed fruits that are fine for making jelly. Also a great attraction for the birds. Blooms early in the spring when color is so much needed in your yard. The tree will be completely covered with large, single, deep rose-colored flowers that will continue long on the tree. The buds as well as the foliage, when young, is a reddish purple. Later on the foliage turns bright rich green. The bark of the tree is dark

red. **Price: 2-year-old, 4/5 ft. trees, each \$2.00; 2 for \$3.75. Less Discount.**

DWARF

APPLES

*Old Folks Should Plant
Dwarf Trees*

Our Dwarf Apples are just the thing for the small back yard or on small places where a standard Apple would take up too much room. Trees often bear first and second year after set, and although they never grow to be over 8 feet, they bear standard size Apples. It's only the trees that are dwarf. Supply of these trees is still limited. Order early and please give second choice. On page 22 we also offer a **Semi-Dwarf Apple**. We have only 4 varieties of the Full Dwarf Apples to sell.

Winesap, McIntosh, Yellow Delicious and Red Delicious. **Price: Each \$3.75; 2 for \$7.00; 5 for \$14.00. Less Discounts.**

Stromer's

Profitable

Yellow Transparent

McIntosh

Northern Spy

DOLGO CRAB

The perfect Crab. Hardy everywhere. Heavy bearer, usually beginning the year after setting. Jells perfectly even when dead ripe. A fine ornamental tree for the lawn as well as a wonderful commercial sort. Rapidly displacing such varieties as Transcendent and Hyslop. Bears young. **Prices on next page.**

YELLOW TRANSPARENT

The finest extra early yellow Apple. It ripens in July and the season continues to September. Fruit medium size, and can be used for pies and sauce before entirely ripe. Flesh white, mild, juicy, and sweet. Trees grow upright, and can be planted at much less distance than most other varieties. Bears young and regularly. 2- and 3-year sizes available. **Prices on next page.**

McINTOSH

McIntosh is a late fall Apple. The fruit is red, good size, with white flesh. We would say that it takes the place of the old-fashioned Snow Apple. It's an eating Apple. Trees grow fast and bear young. Not a winter keeper. 2- and 3-year sizes available.

Prices on next page.

NORTHERN SPY

It's hard to beat the Northern Spy Apple for eating, cooking or any way you want to use it. Fine grain flesh, juicy, and mellow. Has a flavor that is found in no other variety. Trees grow upright, and make an excellent shade tree as well as a fruit tree. Why not plant one in the yard, and sit in the "Shade of the Old Apple Tree?" 2-year and 3-year size trees available. **Prices on next page.**

ANOKA

No waiting for fruit if you plant Anoka. Hardy in all climates. The best early summer Apple of red color. Wonderful as a cooking Apple as well as a tasty eating Apple. Mellow and juicy. Not tart. The trees of the Anoka variety are somewhat dwarfed on account of their early bearing qualities. We offer you strong, healthy trees in both 2-year-old and in the SUPER size. Order yours early, as each year we sell out of ANOKA long before the season is over. 2- and 3-year sizes available. **Prices on next page.**

GRIMES GOLDEN

A winter Apple that is in great demand for drying, baking, pie-making, etc. Waxy yellow skin and very firm, hard flesh. Excellent flavor. Wonderful shipper, as it does not bruise easily. Hardy and prolific. **Prices on next page.**

VEST POCKET APPLE TREES

Six Varieties All On One Tree

This is not just a worthless novelty. It is really true. We have budded 5 different varieties of Apples all on a Whitney Crab Apple stock. This makes 6 varieties all on this one sturdy tough understock. You will get Red Delicious, Yellow Delicious, Dark Red Jonathan, Wealthy, Yellow Transparent, and the Whitney Crab on which all these varieties are budded. Yellow Transparent will be the first to ripen, then the Wealthy, and so on up to the late winter keeping varieties. Why buy 6 trees when you have only room for one? Think how interesting it will be to watch this tree develop. Plant one by your kitchen door, take good care of it, and you will be well repaid with sweet Apple blossoms early in the spring, shade all summer, and fruit all summer and fall.

We are offering only the super size trees, 3 years old. **Each \$3.50. Less Discounts.**

APPLE TREES

Cortland

CORTLAND

A big, round, shapely FALL APPLE, which has won fame for its QUICK BEARING and HEAVY YIELDING habit. Hardy everywhere, and an excellent pollenizer. Flesh is white, tender, sub-acid, good to eat fresh or cooked. Excellent pie variety. Mostly dark red when ripe, overspread with attractive purplish bloom.

DOUBLE RED DELICIOUS

This variety is far superior to the common red Delicious, as it is highly colored all around, with no green sides. Double Red Delicious is America's number one Apple. It tops the market every time, and seems to bear in a wide range of soils and climates. The fruits are very large, solid red, with the five points, and rather long in shape. Truly a most beautiful Apple, and the best eating Apple of them all. Flesh slightly yellow, with semi-sweet flavor. 2- and 3-year-old sizes available.

Red Delicious

Jonathan

Solid Red TURLEY WINESAP

The best keeper of the solid red-all-over winter Apples. Grown everywhere with grand success. Big, beautiful, delicious fresh or cooked. In demand for shipping, storage, drying, freezing, baking, pie making—everything! An all-around perfect Apple.

JONATHAN

This is No. 2 Apple on the market. That is, Red Delicious brings the highest prices and sells the best, and Jonathan comes next. This variety cannot be praised too highly. It's solid red, good sized, firm, juicy, and keeps well. Its flesh is white and brittle with that tart tangy flavor that's in a class all of its own. Cast your eye on that Jonathan Apple above. That's just the way they look when fully ripe. Sink your teeth into a tree-ripened Jonathan and the juice will squirt right into your left eye. If I had room for only one Apple tree, I would surely plant a Jonathan. Start to bear the fourth year after set, and bear every year. We have a 40-acre Apple orchard in bearing. Thirty acres of it are Jonathan. 2- and 3-year sizes available.

WHITNEY CRAB APPLES

This is the largest of all Crabs. Reddish yellow, and fine for jelly, pickling and cider. Available in SUPER size trees only.

Whitney Crab Apple

YELLOW DELICIOUS

Winter. Comes into bearing early, producing heavy crops. Very thrifty, hardy, vigorous grower. A golden Apple which has won fame as an outstanding commercial variety. 2- and 3-year-old sizes available.

MIXED GLADIOLUS Rainbow Mixture

Our mixture of Gladiolus that we offer you is made up of 10 or 12 varieties of choice pinks, reds, whites, lavenders, two-tone pinks, yellows, and many of them ruffled. All strong, tall growing, cut flower varieties. You will be delighted when you see them bloom, and at the price we ask, you will say it was a rare bargain.

BLOOMING SIZE BULBS. Every one will produce a tall spike this year. 25 for \$1.25; 75 for \$3.00; 100 for \$3.95. Less Discounts.

EXTRA LARGE SIZE BULBS. Many will produce more than one spike this year. 12 for \$1.25; 25 for \$2.00; 100 for \$7.00. Less Discounts.

ELMOHR IRIS

This is the largest of all Irises. Elmoir is hardier and more robust than Wm. Mohr. The large blooms are daintily ruffled, silky texture. Color is a rich red-violet. Price: Each \$2.00; 3 for \$5.00. Less Discounts.

BLACK MAGIC IRIS

Fall Blooming

Newest thing in Iris. Grows dwarf, and blooms May to October. Color real dark blue, nearly black. Price: 60c each. Less Discounts.

PERENNIALS AQUILEGIA

Mrs. Scott Elliott's Long-Spurred Hybrid variety. They come in a wide range of pastel colors, both two-tones and solid colors. Plants form a large clump with dozens of flowers stems each season. Comes up every year and lasts for years. May be divided when plants become too large. A favorite garden and bouquet flower. Easy to grow on any soil. Strong, field-grown plants, each 35c; 5 for \$1.50; 10 for \$2.75. Less Discounts.

Old Fashioned BLEEDING HEART

This lovely hardy old-fashioned plant is loved by all. Lives for years and comes forth each spring, right after the snow goes off, with its long arching stems, loaded with dainty heart-shaped flower pendants. Rosy red, pale yellow centers. All stems do not appear at once. Will bloom over a 6-weeks period. Plants are very hardy, and can be divided every 3 years. Plants go dormant in June in time to plant annuals like Zinnias or Marigolds. Large field-grown clump plants, price, Each 75c; 3 for \$2.00. Less Discounts.

GAILLARDIA

BURGUNDY. Red. A large, full flower of dark burgundy-red with self-colored center, highly tufted. Profuse bloomer throughout summer and fall. Blooming-age perennial plants, each 35c; 3 for 90c. Less Discounts.

Mixed DAHLIAS

We offer here a mixture of very beautiful Dahlias in large and small types all colors, shapes, and sizes. A regular GRAB MIXTURE, that is really worth while. Have a Dahlia garden for very little cost. Price: 7 for \$1.00. Less Discounts.

Pacific Hybrid DELPHINIUM

Gorgeous double, large-flowering strains. Solid blues, pinks, lavenders, and many two-tones. Flower stems often reach 4 to 5 feet, loaded with giant flowers from top to bottom. 2-year-old, blooming-size plants, each 50c; 5 for \$2.00; 10 for \$3.75. Less Discounts.

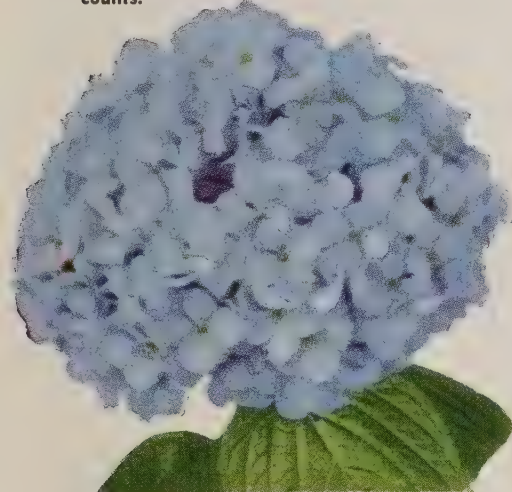

Scarlet Flowering Quince

SCARLET FLOWERING QUINCE

Blooms real early in the spring. Hundreds of scarlet flowers. Bears fruit that is good for jelly. **Prices:** 18 to 24 in. shrubs, each 55c; 3 for \$1.50. **Less Discounts.**

BLUE HYDRANGEA A rare plant of exquisite beauty, which will produce a fine crop of glorious blue flowers measuring 6 to 10 inches across. A few old rusty nails placed in the hole as you plant will assure them to bloom blue and stay blue. Or a teaspoonful of aluminum sulphate will do the trick also. **Prices:** 2-year-old, field-grown plants, each \$2.00. **Less Discounts.**

Blue Hydrangea

Bechtel's Flowering Crab

SHRUBS

SPIREA VAN HOUTTEI One of the most common but still one of the most beautiful of all shrubs. So easy to grow. The branches, covered with small white blooms, will droop gracefully to the ground, and it is sometimes called Bridal Wreath. Blooms early spring. **Prices:** 3-year-old plants, husky, 18-24 in. tall, each 35c; 3 for \$1.00; 6 for \$1.80. **Less Discounts.**

BECHTEL'S DOUBLE FLOWERING CRAB 15 feet. A fine, small flowering tree which, when in bloom, presents the appearance of being covered with delicate pink Roses, scenting the atmosphere with a perfume surpassing the fragrance of the Tea Roses. The cut blossoms have often been taken for Roses. The ideal lawn tree for the small yard. **Price:** Each \$2.00. **Less Discounts.**

FORSYTHIA (Golden Bell). Earliest of all shrubs to bloom in the spring. Always covered with yellow bells before the leaves appear. Often in bloom during a late spring snowstorm. **Prices:** 18 to 24 in. plants, each 45c; 3 for \$1.25. **Less Discounts.**

BITTERSWEET TREE A splendid small tree with deep green foliage with bright autumn color. Loaded with Bittersweet berries in August. Very attractive to birds. **Pices:** 5 to 6 ft. trees, each \$3.00. **Less Discounts.**

HYDRANGEA P. G. Flowers are extra large, white at first, turning to a pretty pinkish purple, and later on in the fall to a perfect broze. Fine winter bouquet. Blooms July to October. **Price:** 18 to 24 in., strong plants, each 65c. **Less Discounts.**

HYDRANGEA A. G. (Hills of Snow). This is the Snowball type Hydrangea. Large blooms in June and last all summer. Will grow in the shade as well as sunlight. **Price:** 12 to 18 in. plants, each 60c. **Less Discounts.**

PINK FLOWERING ALMOND

Small, double, pink flowers real early in the spring about the time that the Forsythia blooms. **Price:** 18 to 24 in. plants, each 60c. **Less Discounts.**

BUSH HONEYSUCKLE Red Tartarian. For a tall hedge or to screen an unsightly view there is no shrub so valuable. Will grow to the height of 10 to 12 feet in a few years. A beautiful shrub both summer and winter. Is the first to clothe itself with leaves in the spring, and its fragrant flowers and luxuriant foliage are a constant delight. Bright red berries cling to the bush all through the winter, giving a brilliant touch of color to the winter landscape. **Prices:** 40c each; 3 for \$1.10. **Less Discounts.**

PINK FLOWERING WEIGELA

Rose-pink flowers in thick clusters borne all along each branch. Flowers are trumpet-shaped. Shapely, pointed green leaves. Grows 4 to 5 feet tall. Excellent cut flowers. Trim as desired. **Prices:** 2-year, blooming age shrubs, 60c each; 3 for \$1.70. **Less Discounts.**

EVERBLOOMING GOLD

HONEYSUCKLE Beautiful flower clusters. Large as your hand. Brilliant rose-red outside and gold inside each flower. Curved petals and long stamens. Lovely for cutting. **BLOOMS FIRST YEAR, EVERY YEAR FROM JUNE UNTIL WINTER.** Trim as vine, shrub or low hedge. Hardy, thrifty grower. **Prices:** 2-year, field-grown vines, 70c each; 2 for \$1.30. **Less Discounts.**

DWARF FROEBELI SPIREA

The red Spirea that goes so well with all landscape plantings. The shrub will be a mass of deep pink bloom all summer. **Price:** 2-yr.-old plants, each 45c. **Less Discounts.**

ALTHEA Large, double, rosette flowers. Fancy green leaves. Bloom late summer through fall months. Grow 4 to 5 feet tall. A very popular shrub. **Colors:** Red, Pink, Lavender, and White. **Prices:** 2-yr., blooming age shrubs, 55c each; 3 for \$1.50; 10 for \$4.75. **Less Discounts.**

BITTERSWEET VINE Reddish orange berries in September and October. Fine for walls or trellises. Also good for ground cover. **Price:** 2-year-old plants, each 60c. **Less Discounts.**

COMMON SNOWBALL This fine common old shrub is still very popular. Blooms around Decoration Day. Large white ball-shaped flowers that resemble Snowballs. **Price:** 2-year, 18 to 24 in. plants, each 75c. **Less Discounts.**

HOPA FLOWERING CRAB

Beautiful, large, single, pink blooms, that will completely cover the tree. (See picture in natural color, page 23.) Fine fruits for jelly and especially fine for bird attraction in the fall. **Price:** Fine, 2-year-old, 4 to 5 ft. trees, only \$2.00 each. **Less Discounts.**

Redbud

REDBUD One of the handsomest of the low growing, flat-topped trees. Attains a height of about 15 feet at maturity. Along the numerous, wide-spreading branches, rosy lavender blooms appear before the tree leafs out in spring. Flowers are so thick the tree appears as a small pink cloud. Due to the extreme hardness of the wood, the tree is usually very late in leafing out. **Price:** 2 to 3 ft. trees, each 95c. **Less Discounts.**

MOCK ORANGE, Virginal

This is the new double white Mock Orange that is so fragrant that it will spray a room with perfume when used as a cut flower. No better shrubs to dress up the yard. Hardy. **Price:** 2 to 3 ft. plants, 95c each. **Less Discounts.**

Mock Orange

BUDDLEIA

Often called Butterfly Bush, because they will attract all kinds of beautiful butterflies in summer and fall. We are offering a mixed lot of all the different colors. **Price:** Large plants, with good root systems, 3 for \$2.00. **Less Discounts.**

Amoor River Privet

Red Barberry

Green Barberry

HARDY HEDGES

AMoor RIVER PRIVET HEDGE

This is the most popular and useful hardy hedge. Grows under all conditions, both favorable and unfavorable. Even grows in smoky city sections, where other plants fail. Dark green leaves, with clusters of fine small flowers early in the spring. Can be clipped any time during the growing season as well as when dormant. Should be set 8 inches apart. **PRICES:** 2-year-old, heavy, 18-24 inch plants, each 40c; 6 for \$2.00; 12 for \$3.50; 25 for \$6.00; 100 for \$19.50.

CHINESE ELM HEDGE

This is by far the best TALL GROWING HEDGE. Best for shielding unsightly back yards. Trim to any height to 20 feet or 4 feet. See page 30 for prices and longer description. **PRICES:** 12-18 inch plants, 10 for \$2.00; 25 for \$3.75; 100 for \$11.50. 4-5 ft., 10 for \$6.00; 25 for \$12.00. **LESS DISCOUNTS.**

GREEN HEDGE BARBERRY

Barberry Thunbergi makes an ideal low growing, bushy hedge for front lawns, and along short driveways. Also useful for groups of three or five in corners. Green leaves turn gold and scarlet in fall. Red berries remain through winter. Set bushes 18 inches apart. (Rust-free type.) **PRICES:** Well rooted, well branched, 15-18 inch plants, each 35c; 6 for \$2.00; 10 for \$2.85; 25 for \$6.25; 100 for \$22.00. **LESS DISCOUNTS.**

RED BARBERRY HEDGE

Same as green Barberry except that the foliage is bright red. Stays red all summer and followed by red berries in the fall. Plant 18 inches apart. Fine to plant near or around evergreens to discourage dogs. **PRICES:** 15-18 inch, 2-year-old transplants, each 50c; 3 for \$1.40; 12 for \$4.50. **LESS DISCOUNTS.**

HANSEN'S BUSH CHERRY HEDGE

THE TWO-PURPOSE HEDGE **THE NEW QUICK-BEARING CHERRY**
EASY TO GROW — SURE TO PRODUCE
HIGHLY PRODUCTIVE — GOOD FLAVOR — HARDY EVERYWHERE

Though the fruit of this new Cherry much resembles a Plum in size and shape, it comes massed in clusters and at times almost completely covers the limbs. The tree itself grows in a sort of dwarf bushlike shape, rarely getting over 4 or 5 feet tall. In landscape planting these Bush Cherries are also desirable, as they are of striking ornamental value, and one of the best hedges.

PLANT THESE HANSEN BUSH CHERRIES BECAUSE

- 1—They are so easy to grow and are perfectly hardy everywhere.
- 2—Are good to eat fresh, and make delicious preserves.
- 3—Bear from the ground up, early, heavily, and annually.
- 4—Are dwarf growing, bushy, and take up little room.
- 5—Excellent for hedges, ornamental shrubs and erosion control.

Fruits in one year. Large, three-year-old Bush Cherries, ready to bear this year.

PRICES: 18-24 inch plants, well branched, each 30c; 6 for \$1.80; 12 for \$3.25; 25 for \$6.25; 100 for \$19.50. **LESS DISCOUNTS.**

SPIREA VAN HOUTTEI

One of the most common but still one of the most beautiful of all shrubs. So easy to grow. Early in the spring the leafless branches will be covered with tiny snow-white blossoms drooping gracefully to the ground. Often called Bridal Wreath. We offer strong, field-grown plants in 18-24 inch size. Best size to plant. **PRICES:** 3-year-old, 18-24 inch, each 35c; 3 for \$1.00; 6 for \$1.80; 10 for \$2.80; 25 for \$6.25. **LESS DISCOUNTS.**

Spirea Van Houttei

Spiny Greek Juniper

Upright Growing
← Yew

Globe →
Arbor-Vitae

SPINY GREEK JUNIPER

(*Juniperus excelsa stricta*)

Narrow, columnar, having many erect branches and branchlets. Foliage spiny, with sharp points, glaucous blue. Of extremely dense growth and develops a formal shape, valuable in landscape. Grows slowly, eventually reaching a height of 4 feet, with a spread of 2½ to 3 feet. Can be kept smaller by trimming. Plant in a dry, sunny location. **Price:** 6-8 inch plants, 2 for \$1.25. 18-24 inch plants, each \$3.00; 2 for \$5.75. Less Discounts.

GRACEFUL EVERGREENS

UPRIGHT GROWING YEW (Hicksi)

Will thrive in full shade or full sun. Grows upright, shrub-like. Not too narrow. Fine for corner plantings, or between windows. Can be pruned to most any shape, or will stand cutting back if it should become too large for the place it is in. Its dark green foliage, with its lighter new growth, makes it about the prettiest of all evergreens. Very hardy and tough. Does well in sand or hard ground, wet or dry. Lasts many years, and never seems to need replacing. **Price:** 8-10 inch plants, 2 for \$2.00; 4 for \$3.75. Less Discounts.

NORWAY SPRUCE

This is one of the easiest and fastest growing of all the evergreens, and also one of the most beautiful ones. The foliage is dark green throughout the whole season. It is so hardy and thrifty that it will grow anywhere—on high dry yellow sand, or on low ground where water will stand part of the year. For windbreaks that are the best, also for Christmas trees, as well as ornamentals. Makes a beautiful driveway when planted on both sides. Will stand trimming, and if the head is cut out, can be formed into a round ball.

We are offering several sizes at prices that you will not want to pass up. We intend to sell our entire stock this spring, so that no doubt this offer at these prices will not appear again in another year.

NORWAY PRICES—LESS DISCOUNTS

PYRAMIDAL ARBOR-VITAE

Dark green foliage, hardy, pyramidal shape. Grows anywhere. Plant one on each side of your garden gate, or each side of your front steps. We offer different sizes. **Price:** 18-24 in., each \$2.50; 2 for \$4.50. Less Discounts.

GLOBE ARBOR-VITAE

A dwarf evergreen, with compact globe shape. Dark green. Fine for cemetery landscape work. 3-year-old. **Price:** 10-12 inch plants, (across) each \$2.00; 2 for \$3.30. Less Discounts.

DWARF MUGHO PINE

We offer the dwarf Mugho Pine, which are so much better than the Montana Mugho. These are compact, and are often called Pincushion evergreen. Dark green foliage, with beautiful silvery pink new growth in the spring. **Prices:** 10x10 in. plants, each \$2.00; 16x16 in. plants, each \$3.00; 20x20 in. plants, each \$4.00. Less Discounts.

20%	Discount until Feb. 5th.
15%	Discount until March 5th.
10%	Discount until April 5th.

IRISH JUNIPER

Of decided columnar form and immediately attracts attention. For formal work, especially in contrast with other plants, it has decided advantage over anything you can use for such work. Slender in habit; needs no shearing. **Price:** 2-3 ft. tall, well filled trees. Each \$3.00; 2 for \$5.50. Less Discounts.

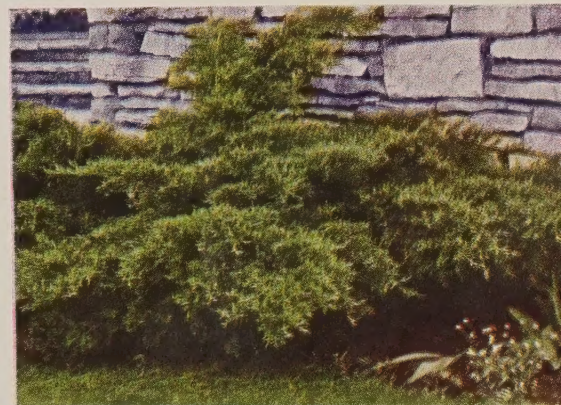

PFITZER'S JUNIPER

This is one of the most popular Junipers. Spreading type, very hardy. Grows anywhere, even in shade. Wet or dry. Silvery green foliage.

Pfitzer's Juniper Prices
18-24 inch spread, each \$2.75; 2 for \$5.00. 2-3 ft. spread, each \$4.50; 2 for \$8.00. 3-4 ft. spread, each \$6.00; 2 for \$11.00. Less Discounts.

SHADE and ORNAMENTAL TREES

European Mountain Ash

Our most gorgeous ornamental shade tree! Clusters of small white blooms are followed by large clusters of orange-red berries which remain all winter. Heavily clothed with dark green pinnate leaves, which color yellow and violet in autumn. Shapely oval head. **Price: 5-6 ft. trees, each \$2.50. Less Discounts.**

American Sycamore

Often called Planetree. Large handsome leaves, smooth light colored creamy white bark with age, gives tree a striking appearance. One of the best shade trees. **5-6 ft. trees, each \$2.50. Less Discounts.**

Silver Maple (*Acer dasycarpum*)

Very hardy, rapid growing native tree, valuable for producing quick shade. Good sized, rather deeply and irregularly indented leaves, which turn yellow and bronze in the fall. **Prices: 6-8 ft. trees, each \$2.50; 8-10 ft. trees, each \$3.00. Less Discounts.**

White Bark Birch (*Betula alba*)

The prettiest of all shade trees. Pure white bark, that will peel tissue paper thin, as the tree grows older. Leaves are small, and dense. **4-5 ft. trees, each \$1.75; 2 for \$3.00. 5-6 ft. trees, each \$2.10; 2 for \$4.00. Less Discounts.**

Chinese Elm

One of the most rapid growing trees. Very durable and hardy. Slender, tough branches. Compact habit of growth with small attractive leaves. Highly recommended for street planting. Grows anywhere, and is one of the best for dry climates. Picture above. **8-10 ft. trees, each \$2.50. Less Discounts.**

Cutleaf Birch

Red Leaf Prunus

This red leaf Plum is a beautiful sight early in the spring with its blood red leaves and bark, followed later on by tiny white flowers. Red leaves will fade out a little later on in the summer, to a bronze, which is also very beautiful. **4-5 ft. trees, each \$2.20. Less Discounts.**

Cutleaf Birch (Weeping)

The queen of all Birches is this unusually graceful tree with weeping branches. Excellent for lawn planting. Bark is white, and peels as the wood ages. Picture to left. **5-6 ft. trees, each \$3.00. Less Discounts.**

Lombardy Poplar

A tall shaftlike column that grows quickly. Makes a fine effect planted along driveways. **10-12 ft. trees, each \$2.00. Less Discounts.**

Russian Mulberry

If you plant Cherry trees this year or now have Cherry trees growing, plant a Russian Mulberry for the birds. They will leave your Cherries alone, and eat the Mulberries. One tree is enough. **Price: Each \$1.50; 2 for \$2.50. Large, 5-6 ft. trees. Less Discounts.**

Double Flowering Plum

See picture to right in natural color of a tree that is only three years old. (Second year after planted). Extra large double, pure pink flowers that last a long time. Bloom in May. Does not bear fruit. **2-year-old, 4 ft. trees, each \$2.50; 2 for \$4.25. Less Discounts.**

Prunus Triloba (Rose Tree of China)

Dainty pink double flowers on graceful nodding branches in early spring. Fancy leaves color bronzy red in autumn. Grows 6 to 8 feet. **BRANCHED BUDDED TREES: 3-4 ft. trees: Each \$1.60; 2 for \$3.00. Less Discounts.**

Weeping Willow

This is the green Weeping Willow, with the long, drooping branches, that dresses up a yard so beautifully. Also fine for rock gardens along the bank of a stream or lake. Very hardy. Will grow on high ground or in water. Picture above. **Price: 5-6 ft. trees, each \$1.60; 2 for \$3.00. Less Discounts.**

Double Flowering Plum

Stromer's

EVERBLOOMING BUSH ROSES

STROMER'S EVERBLOOMING ROSES START BLOOMING SIXTY DAYS AFTER YOU SET THEM OUT IN YOUR YARD, AND WILL CONTINUE TILL KILLING FROSTS LATE IN THE FALL.

CALEDONIA. Clear pure white. Free blooming. In bloom from May 20th till frost in October. Fragrant. Double, perfect shape. Vigorous grower. Long, pointed buds. **Large, 2-year-old, field-grown plants, each \$1.50; 3 for \$4.00. Less Discounts.**

P. S. DUPONT. New yellow Rose, just out. Free bloomer, vigorous grower. Very fragrant and fine shape. Buds are long, pointed. Long stems, and fine for cut flowers. Blooms May to frost in fall. **Large, 2-year-old, field-grown plants, each \$1.50; 3 for \$4.00. Less Discounts.**

Rouge
Mallerin

EDITOR McFARLAND. The sweetest pink Rose of them all. So dainty. Pure pink, on long stems, and large plants. Pointed buds. Fragrant. One flower is worth the cost of the plant. With good care you will get 25 blooms from May to frost. **Large, 2-year-old, field-grown plants, each \$1.50; 3 for \$4.00. Less Discounts.**

ROUGE MALLERIN. Everybody loves a red, red Rose. This is one of the best red Roses of them all. Deep red, slightly veined, long stems, and free bloomer. Long, pointed buds. Fragrant and an excellent cut flower. Dark green foliage. Blooms May to frost. **Large, 2-year-old, field-grown plants, each \$1.50; 3 for \$4.00. Less Discounts.**

Paul's Scarlet Climber

The "Reddest Rose That Grows," and the most popular of all climbers. Large, semi-double blooms in bold clusters hold their vivid scarlet color until the petals fall. Very fine for trellises and arches, or can be kept nipped back to bush form. **Prices: 2-year-old, large plants, ready to bloom, each \$1.00; 3 for \$2.85. Extra heavy size plants, each \$1.50. Less Discounts.**

HARDY PHLOX

Newest and largest varieties. None prettier than the selection we offer here. All are sweet scented and grow about 18 inches tall. Flower heads 8 to 12 inches long. Start to bloom July 15th, and last until fall. We offer large field-grown plants in a mixture of a dozen of the prettiest colors and varieties. Price: 3 for \$1.10; 10 for \$2.50; 25 for \$5.00. Less Discounts.

HARDY ASTER (BLUE LAGOON)

A charming variety of the Novi-Belgi type, with beautiful large, lacy, blue flowers, with yellow centers. In early September the 2- to 3 foot, bushy plant will be completely covered with bloom, lasting into late fall, to be killed with hard freezes. Plants last for years. Large clump, field-grown plants, each 50c; 3 for \$1.45. Less Discounts.

Hardy Perennial Carnations, So Easy to Grow

CRIMSON KING CARNATION

These hardy, double Crimson King Carnations should be in every garden, especially since the plants are not high priced, and they are so easy to grow. Bloom all summer, with stems 12 to 16 inches long, with one to 4 large blooms on a stem.

Actual photographs in full color below. Why not grow your own. We will supply you with plants that will bloom for you within a few weeks after you get them, and bloom all summer.

Price: Each 50c; 3 for \$1.30; 12 for \$4.25. Less Discounts.
